

Victor Messercola

(443) 505-6651 | Baltimore, MD | victormessercola@gmail.com

EDUCATION

Bachelor of Science in Computer Science

May 2025

Towson University – *Towson, MD*

- Software Engineering Club
- Dean's List

Associate of Science in Computer Science

May 2023

Community College of Baltimore County – *Essex, MD*

GPA: 4.00

Relevant Courses: Web-Based Programming, Object-Oriented Design & Programming, Data Structures & Algorithms, C++ Programming, Calculus I & II, Linear Algebra, Discrete Mathematics

CERTIFICATIONS & SKILLS

Programming languages: Java, C#, C++, Python, JavaScript

Technologies: HTML, CSS, React, Firebase, Unity Engine, JavaFX, LINQ

Lyft Virtual Experience Program – Forage

Sep. 2023

- Successfully demonstrated proficiency in Software Architecture, Refactoring, Unit Testing, and Test-Driven Development through practical tasks

Certified in Cybersecurity (CC) – (ISC)²

Jul. 2023

PROJECTS

Sound Guessing Game | HTML, CSS, React, JavaScript, Firebase

Summer 2023

www.listentochamps.web.app

- Engineered an innovative, interactive sound-based guessing game using React, showcasing advanced proficiency in modern web development technologies
- Integrated Firebase as the backend technology, significantly enhancing user engagement by providing synchronized daily challenges, demonstrating a strong understanding of cloud-based database management
- Leveraged Firebase Realtime Database for efficient storage and retrieval of challenge data, including sound file names and correct answers, demonstrating a keen ability to handle complex data structures

Pet Care Business Website | HTML, CSS, JavaScript

Winter 2022

www.helpingpawpetcare.com

- Designed and developed a comprehensive website for a local pet care business using HTML, CSS, and JavaScript, demonstrating a strong grasp of front-end web development
- Established effective communication channels with the client, ensuring their expectations were aligned with project limitations and deadlines, showcasing excellent client relationship skills
- Delivered a user-friendly interface and seamless navigation, enhancing the user experience and contributing to the client's business growth

Data Viewer Tool | Java

Winter 2022

- Engineered a robust data view tool using Java and JavaFX, enabling users to view and compare video game characters stats, move sets, and information, demonstrating a strong understanding of Java and its libraries
- Applied object-oriented programming principles to develop modular, scalable, and easily maintainable code, showcasing fundamental software development skills
- Implemented multi-threading to enable simultaneous loading of select external data, demonstrating a deep understanding of concurrent programming and its application in improving software performance

EXPERIENCE

Home Caregiver – *Essex, MD*

Jun. 2019 - Present

- Assisted quadriplegic patient with activities of daily living including but not limited to personal hygiene, medication, eating, traveling, and sleeping
